GRINDELWALD

10 STEPS TO
IMMEDIATE FP1 SMILES

WITH
matrix[®]

Mastering Fully Digital & Abutment-Free
Immediate Implant Workflows

2027
JANUARY 28-29

DR. STAVROS
PELEKANOS

GRINDELWALD
SWITZERLAND
LEARN & CONNECT IN THE HEART
OF THE SWISS ALPS

COURSE INTRODUCTION

Join Dr. Stavros Pelekanos in the stunning Swiss Alps of Grindelwald for an exclusive 2-day educational experience focused on fully digital immediate FP1 workflows with **matrix**® and the future of abutment-free implantology.

This intensive course presents a streamlined 10-step protocol for achieving predictable, esthetic, and prosthetically driven immediate FP1 rehabilitations — from digital data acquisition to guided surgery and final restoration delivery. Participants will discover how **matrix**® enables simplified restorative workflows by eliminating traditional abutments while optimizing precision, soft tissue management, and restorative efficiency.

Through clinical concepts and practical digital workflows, attendees will learn how to integrate smile design, CBCT planning, facially guided workflows, implant positioning, and immediate provisionalization into one seamless digital ecosystem. Designed for clinicians seeking to elevate their immediate loading protocols, the course focuses on delivering highly esthetic FP1 outcomes with greater simplicity, accuracy, and biological integration.

SPEAKER
DR. STAVROS
PELEKANOS

THE 10 STEPS TO IMMEDIATE FP1 SMILES WITH

matrix®

by Dr. Stavros Pelekanos

01

DIGITAL DATA ACQUISITION

IOS, CBCT, photos, videos, face scan and motion capture for complete digital patient records.

02

2D SMILE DESIGN

Facially driven smile design including incisal edge position, tooth proportions and AI-supported workflows.

03

MERGING FILES & SEGMENTATION

Integration of STL, CBCT and facial data for CR, VDO and prosthetic diagnosis.

04

CONVERSION 2D TO 3D DESIGN

Decision FP1;FP2;FP3 Smilecloud or CAD Software

05

VEX MODEL CREATION

Evaluation of bone support and soft tissue emergence profiles.

06

FINAL 3D PRO- STHETIC DESIGN

Digital design of function, emergence profile and transmucosal contours.

07

IMPLANT PLANNING & COMPONENT SELECTION

Guided implant positioning and **matrix®** abutment-free restorative component selection.

08

PROVISIONAL DESIGN & VALIDATION

Design and verification of the immediate provisional restoration.

09

SURGICAL GUIDE DESIGN

Creation of guided surgery protocols with sequential or stackable guides.

10

FABRICATION & CLINICAL EXECUTION

Production and delivery of guides, provisionals and final restorations.

PROGRAM

JANUARY 28 JANUARY 29

Time	Activity	Time	Activity
Morning	Individual Arrival	08:30	Welcome Coffee
12:30	Welcome Lunch	08:45	Lecture Session I
13:30	Lecture Session I	10:30	Coffee Break
15:45	Coffee Break	10:45	Lecture Session II
16:00	Lecture Session II	12:30	Lunch
17:30	End of Day 1	13:30	Lecture Session III
18:45	Tobogganing by Night & Fondue Dinner	17:00	Certification Ceremony
		19:00	Closing Get-together

FEES

SUPER EARLY BIRD (valid until September 30, 2026)

CHF 1'650 (excl. 8.1% VAT)

EARLY BIRD (valid until November 30, 2026):

CHF 1'950 (excl. 8.1% VAT)

REGULAR:

CHF 2'450 (excl. 8.1% VAT)

The course fee includes tuition, lunch, and all dinners specified in the program. Travel and accommodation expenses are not included.
