Perfect for clinicians who are ready or just curious about going 100% digital in their everyday cases. In just one power-packed day you will master:

- ✘ The game-changing TRI® **matrix®** Implant System
- ✘ Intraoral Scanning & Virtual planning for ideal implant positioning
- ✘ Fully guided surgery from A to Z
- ✘ Digital Scanning workflows for predictable restorations
- ✘ Abutment and crown design for aesthetic, healthy and stable peri-implant tissues
- ✘ In-house/practice 3D printing of customised, aesthetics-driven abutments & temporary crowns
- ✘ Placement & use of customised, aesthetics-driven temporaries

Benefits: You will walk away placing and restoring single implants faster, more predictably, and with stunning aesthetics – all while maximising your in-practice manufacturing.
