COURSE CONTENT

The two days full immersion course will provide a practical insight into the most current digital approaches in implantology. The course aims to emphasize the prosthetically advantages of a fully digital workflow allowing maximum freedom in designing, material choice, and 3D print or CAM production of personalized and abutment-free restorations - from single crown to full arch, from provisional to final restoration.

LEARNING POINTS:

- ✗ Understand the new level of surgical flexibility and safety with the novel **matrix**[®] implant design (incl. hands-on trainings)
- ✗ Understand the full digital implant workflow from data generation over design to digital manufacturing (incl. hands-on trainings and live demonstration of IOS, 3D printing and CAD/CAM)
- ✗ Understand importance of a team approach between Dental Technician and Dentist to reach high aesthetic results
- ✗ Understand the biologics and workflow benefits working with the abutment-free **matrix**[®] implant system
- ✗ Expend your surgical skills from high aesthetic single crown to full-arches

In partnership with

SprintRay

AMANN GIRRBACH

Program

DAY 1

- ✗ How does the **matrix**® work?
- ✗ Journey from Bone-Level to Multi-Level for single crown restorations
- ✗ How to achieve better biological and esthetical results
- ✗ How to predict high esthetic modelling of the tissue through correct implant planning and immediate placement
- ✗ Chairside Patient-specific 3D printed provisional (Scan & Smile by TRI®)
- ✗ Advantages of 3D Printing Technology
- ✗ **Hands-on:** Surgical workflow placing a **matrix**® Multi-Level Implant, Digital Impression Taking & IOS, Design of provisional, 3D Print Chairside Temporary Crown

DAY 2

- ✗ Direct data transfer to design of digital impression of day 1 and mill patient-specific and personalized final restoration (copy & paste technique)
- ✗ Decision: When to print and when to mill
- ✗ Team approach to achieve perfect esthetics and biological results
- ✗ **matrix**® Case Presentation
- ✗ History and evolution of full arch approaches
- ✗ Q&A Session

Wednesday, February 1st

Individual arrival

19:00 Welcome Get-together

Thursday, February 2nd

09:00 Pick up at Train Station / Transfer

09:15 Welcome Coffee

09:30 Start Lecture

13:00 Lunch

17:00 End of day 1

18:45 Tobogganing by night & Fondue Dinner

Friday, February 3rd

09:00 Pick up at Train Station / Transfer

09:15 Welcome Coffee

09:30 Start Lecture

13:00 Lunch

15:00 End of Course / Individual departure
