POSTGRADUATE CERTIFICATE (PGCERT) IN IMPLANT DENTISTRY

with Prof. Cemal Ucer

INTRODUCTION

Ucer Education's Postgraduate Certificate (PGCert) in Implant Dentistry (EduQual Level 7) teaches clinicians how to incorporate implant treatment into their practices safely and with confidence using the most documented and proven implant systems. The one-year dental implant course is a PG Cert in Implant Dentistry qualification accredited and awarded by EduQual, an established UK awarding body. The Ucer Education team has accumulated years of teaching and research experience as well as gaining a European reputation for developing the framework for clinical teaching dental implantology and training the trainers in this field.

AIM

The dental implant course is exclusively designed to provide clinicians with the theoretical and practical skills required to perform dental implants to the highest standard, either from a surgical and restorative or just a restorative perspective. The aim is to teach and train dentists to gain full clinical competence needed for the provision of safe and satisfactory dental implant treatment to their patients and gain an accredited postgraduate qualification in Implant Dentistry.

Prof Cemal Ucer
BDS, MSc, PhD, FDTFEd (RCSEd)

£575 INCL
