# Horizontal Bone Augmentation: An Exploration of Alternate Approaches

**Dr Steve Soukoulis**  
Sydney - Friday 14 June 2019

## The theoretical and practical considerations for the Ridge Split and Khoury Bone Shield Procedures

Augmentation of deficient alveolar sites has come a long way in the last 20-30 years. The only predictable thing in dentistry is change and thankfully many positive changes have occurred with the advent of biomaterials that support dental professionals in seeking outstanding results in alveolar augmentation procedures.

Combining scientifically proven biomaterials with surgical protocols can improve the predictability of results when dealing with large and or complex alveolar deficiencies.

The utilisation of techniques, such as the ridge split procedure, along with the Khoury bone shield have been staple procedures in my practice and can actually be a continuum in technique.

[This course will outline](#) in detail the indications, surgical protocols and provide hands-on experience on how to quickly and confidently integrate these procedures into your surgical skill tool kit.

*This course is designed for practitioners with an interest in expanding their treatment options for horizontal bone augmentation.*

## Dr Steve Soukoulis

Dr Steve Soukoulis is a Periodontist based in South Australia. He graduated with a Bachelor of Dentistry from the University of Adelaide in 1996, whilst completing his postgraduate studies in Periodontology from the same University in 2001. Having held teaching positions at the University of Adelaide, Dr Soukoulis now lectures extensively both nationally and internationally.

Dr Soukoulis has recently founded the Dental Implant Registry of Australia & New Zealand, an initiative designed to facilitate improved dental implant patient outcomes. He is an active member of the Australian Osseointegration Society, Australian Society of Periodontology, Australian & New Zealand Academy of Periodontology and the American Association of Periodontology.

Dr Soukoulis maintains a private practice restricted to the specialised fields of Periodontology and Implantology in the suburb of Wayville in Adelaide.

### Venue Details:

**City** Sydney  
**Date** Friday 14 June 2019  
**Location** Park Hyatt, 7 Hickson Road  
Sydney NSW 2000

EARLY BIRD:  
SAVE \$100 WHEN  
REGISTERED BY  
30 APRIL 2019!

### Course Details:

**Time** Registration: 8.30am  
Lecture and Hands-on Workshop:  
9.00am - 5.00pm

**Cost** **\$995.00** including morning tea  
lunch and afternoon tea

**CPD** 6 Scientific CPD hours

*All workshop materials provided  
Attendees are welcome to bring their own loupes*

**EXACTLY**  
like no other.
