2 DAY COURSE

SEPTEMBER 10-11

**Digital Implant Dentistry Masterclass:
From Single Crown to Full-Arch Restorations**

DESCRIPTION

The one and a half day full immersion course will provide a practical insight into the most current digital approaches in implantology. The course aims to emphasize the prosthetically advantages of a fully digital workflow allowing maximum freedom in designing, material choice, and 3D print or CAM production of personalized restorations - from single crown to full arch, from provisional to final restoration.

**LEARNING
POINT**

- ✘ Enhance surgical techniques for superior biological and esthetic outcomes
- ✘ Gain insights of surgical flexibility with TRI®
- ✘ Understand the full digital implant workflow, from data generation to final restoration
- ✘ Gain practical skills in digital impression taking, CAD/CAM design, and 3D printing
- ✘ Learn to achieve high aesthetic results through effective team collaboration.

LOCATION

Sunway Hotel Phnom Penh, Cambodia
