**COURSE DESCRIPTION**

- ✘ In this advanced two-day course, you will have the exclusive opportunity to learn from the distinguished team at Malo Clinics, renowned as the pioneers of the "all-on-4" concept. This comprehensive course will take you on a journey from simple cases to complex full-arch immediate restorations.
- ✘ You will gain invaluable insights into executing a straight forward immediate single-crown case using the **matrix®** Implant System with the unique "Scan&Smile" technique, a fully digital approach with a 3D-printed temporary restoration (from implant placement to temporary crown in less than 1 hour)
- ✘ During live surgery on a full digital immediate "All on X" patient, the seasoned surgeons from Malo Clinics will share their outstanding know-how of 30 years Full Arch treatment experience.
- ✘ The presentations by the Prosthodontics and Surgeons will provide you with a deep understanding of scientifically proven full-arch treatment techniques refined over three decades.
- ✘ In the „Scan and Smile“ hands-on session you will experience 100% digital approach facilitated by the **matrix®** implant system.
