

## TRI® welcomes Geistlich Pharma AG as strategic minority investor

**Switzerland, September 2025** – TRI Dental Implants Int. AG ("TRI®") announces that Geistlich Pharma AG has acquired a minority stake in the company.

At the heart of TRI®'s innovation is the matrix®, the world's first dental implant system without an abutment. By eliminating abutments and enabling prosthetic crowns to be screwed directly onto the implant, TRI® simplifies the implant workflow, saving significant time and cost. Combined with a suite of 10 digital apps, the system empowers clinicians with seamless, fully digital solutions for patient care.

Geistlich and TRI® share a foundation of Swiss quality, innovation, and scientific excellence. While TRI® continues its independent, founder-led path and international expansion, the investment underscores a shared vision in digital technologies to shape a patient-centered future in dentistry.

## About TRI® Dental Implants

TRI® Dental Implants is a fast-growing global provider for inspiring digital implant solutions. TRI® provides high-quality, innovative, and easy-to-use implant solutions for the benefit of patients worldwide. The company is headquartered in Hünenberg, Switzerland. All products are designed and produced in the heart of Switzerland and distributed into more than 50 countries worldwide.
